

KRITIKA BHATT

Noida, Uttar Pradesh

+91 8384047933 [Mail](#) [LinkedIn](#) [GitHub](#)

Education

Jaypee Institute of Information Technology

Bachelor of Technology in Computer Science

2023 – 2027

Noida, U.P.

Amity International School

Senior Secondary (PCM)

2020 – 2022

Delhi

Technical Skills

Languages: C/C++, Python, JavaScript, TypeScript, SQL (Postgres), HTML/CSS

Frameworks: React, Node.js, Express, MongoDB, Tailwind CSS, TensorFlow, OpenCV

Developer Tools: GitHub, Git, VS Code, Visual Studio

Projects

Harvesta | React, Node.js, Express, MongoDB, REST API

GitHub

- Engineered a full-stack marketplace connecting **200+ farmers** directly with buyers by aggregating real-time crop price data from **5+ regional APIs**, eliminating dependence on middlemen
- Architected a competitive bidding engine handling **500+ concurrent bid submissions** with server-side validation, enforcing transparent auction logic and reducing price disputes by **30%**.

JIIT-SmartSched | Node.js, Express.js, React.js, MongoDB, ExcelJS

GitHub

- Design a full-stack timetable management system using React.js (frontend) and Node.js/Express.js (backend) with MongoDB for persistent admin authentication via JWT
- Implemented a Constraint Satisfaction Problem (CSP) solver algorithm to automatically detect and resolve three types of scheduling conflicts: venue double-booking, teacher overlap, and batch clashes .

Agro-Vision | Python, TensorFlow, OpenCV, Flask

GitHub | Live

- Reduced server load by 40% by implementing client-side image processing and real-time preview features, improving annotation workflow efficiency.
- Developed and integrated Python-based ML training and inference pipelines, automating batch inference for 1,000+ images and improving evaluation efficiency by 30% for plant disease detection.
- Implemented JWT/OAuth-based authentication with Role-Based Access Control (RBAC), securing 100% of dataset operations and managing multi-level contributor permissions.

Experience & Leadership

JIIT Optica Chapter

May 2025 – Present

Strategic Head

Noida, U.P.

- Spearheaded **8+ technical events** on optics and photonics, driving a **40% increase** in student participation.
- Formulated strategies to increase student engagement and chapter participation by 40%.
- Coordinated logistics and content for seminars, attracting 100+ attendees from various institutions.

Achievements

Winter Hackathon

Noida, U.P.

Third Position

2024

- Secured third position by developing Harvesta, a platform empowering farmers to access real-time market prices.
- Built the full-stack application integrating APIs for price comparison, crop data, and personalized farmer support using React, Node.js, and PostgreSQL.

Coding Experience & Technical Contributions

- Solved **100 problems** on LeetCode and GFG .
- Participated in **5+ competitive programming contests** on Codeforces and LeetCode, consistently solving 2–3 problems under timed conditions.
- Contributed to **3+ open-source repositories** on GitHub by fixing bugs, improving documentation, and optimizing existing code for better readability.
